emen type, loaded with torpedoes and ammunition. Many officials leaned to that ew and pointed out that one ne submarine 3000 miles from base would scarcely have spent

torpedoes so prodigally as did Commander Rose unless there was a supply closely at hand.

As a direct result of the submarine's activities Sunday the cotton market opened Monday 32 points down, based on the apparent difficulty of making exports. Wheat went off at 4 1/2c a bushel from the same cause. Marine insurance rates from American and English ports to this port jumped from one to five percent as the consequence of the German submarine operations. Owners, agents and others interested in vessels near the Atlantic coast, flying the flags of nations hostile to Germany have tried to warn their ships and are suffering great uneasiness as to the ultimate end of the voyage.

The U-53 is a man of war, flying the flag of the German navy, and has a single gun mounted on her deck. The submarine anchored in the harbor two miles down the bay. No one went on the ship but a representative of the Associated Press was allowed to go aboard and learn the vessel's story. She was 17 days in crossing the ocean, and carried provisions for three months; not even requiring a jug of water before her departure. This is the first time a foreign submarine has ever entered an American port.

ALLEGED NIGHTRIDERS IN LAKE COUNTY.

Bud Moore, of Hathaway, Tenn., and Alton Ray and Aubrey Hendrix, of Dukedom, Ky., are in jail at Tiptonville, Tenn., according to information received here on the charge of night riding. The three men went to a negro house on Hickory Ridge and warned the negroes to leave, threatening them considerably. When they went to a second place they were caught by two white men who were on guard. This was last Thursday night. Friday they were brought before Esq. Mathis at Reelfoot and bound over under bond of \$1000 each to appear in court. Being unable to give bond, they are now in jail awaiting trial.

Several negroes were frightened away by the action of the men, but planters induced some of them to return there to pick cotton for them.

The farmers there are in need of negro labor and will do all they can to protect the negroes from the attacks or threats of the irresponsible whites.

The sensation created Saturday when the U-53 quietly slipped into the Newport harbor and as quietly slipped away three hours later, was less than the shock in shipping circles when wireless reports of submarine attacks began to come into the naval radio station just before noon Sunday. Within a few minutes the air was literally charged with electricity as wireless messages of warning were broadcast along the coast.

The submarine or submarines had taken a position directly in the steamer lanes, where they could hardly miss anything bound in for New York or bound east from that port.

Vessels of the entente allied nations and neutral bottoms carrying contraband of war scurried to get within the three-mile limit of the American shore. Several that were following the outside course were shifted and made for the inside lane. The Stephano of the Red Cross Line, however, was caught outside the neutral zone. The destruction of this vessel was perhaps the biggest prize of the day. The craft had been sold to the Russian government and would have been used as an ice-breaker after her present trip.

REDIN FOUND DEAD IN FIELD FRIDAY MORNING.

Fate Redin, age about 40 and single, was found dead in a field near the home of G. W. Tucker, with whom he made his home, at an early hour Friday morning. Mr. Tucker lives about 16 miles below Hickman.

Deceased had been sick for some time and is thought to have gotten up while in a delirious condition and wandered away from the house, which happened between midnight and daybreak. The first intimation of the tragedy was when Mr. Tucker found deceased's clothing in the bedroom and Redin gone.

Coroner H. C. Barrett investigated the case and the finding of his jury was that Redin came to his death from natural causes. The jury was composed of Dr. A. O. Longnecker, G. W. Tucker, Albert Willis, Jas. Owens, Ed Holt, and T. L. Carr. The body was buried Friday at Sassafras Ridge.

Redin will be remembered as one of the brothers who participated in a duel in the lower end of the county about 15 years ago, when Redin's brother and a Mr. Estes were killed.

AN APPEAL.

From State Campaign Chairman J. C. Cantrill To The Democrats of Kentucky.

As you are doubtless aware it takes a large amount of money to pay the absolutely legitimate expenses of a campaign. Even the matter of postage is a big item and to prepare the campaign matter and mail it to the voters require a small army of stenographers and typewriters. The postage, preparation and stationery of a single letter to every voter in the State costs \$15,000 and all of them will have been written to several times before the election. Besides there are many other expenses that must be met such as office rent, office force expense, traveling expenses for speakers, etc. The Democratic party has no large contributors to rely upon, no Wall Street, no railroad managers. The expenses of the campaign must be met by the people as I will not seek the contribution of a single corporation in the State.

President Wilson, supported by a Democratic Congress, has achieved more in the last three and a half years of control than was ever before achieved in ten times as many years by any administration. Its useless to enumerate the list of splendid laws that have been passed on the statute books which have vitalized the nation. The people owe it to President Wilson and to themselves to retain him in office to continue the good work he is doing.

By filling out the following blank and enclosing amount you desire to donate you will greatly aid the cause of Democracy:

J. C. Cantrill, Chairman Dem. Campaign Com. Lock drawer D 2344, Louisville. I enclose \$..... For Democratic Campaign.

Name..... Address..... Hickman, Ky.....

Enclose this blank with contribution.

Contributions may be sent to the Hickman Courier or direct to Mr. Cantrill.

It is less than a month until the election. Let it be a month of ceaseless work for the Democratic party and there will be no interruption of the patriotic program mapped out by the greatest of presidents who has during one of the most difficult periods of the country's history steered the ship of state with steady hand and courageous heart.

MUST HAVE GOOD CAUSE.

President Wilson said at Omaha that America is as ready to fight as any nation, but its cause must be just. That's the thing. We must not be thrown into all the horrors of war to please the jingoes or to make speculation become remunerative. The country seems willing to leave it to President Wilson and there is every indication that he will be given four more years of power to keep it out of war with honor that has attached to all his dealings with other nations.

WILSON AND PEACE OR HUGHES AND WAR.

In his speech to the Young Men's Democratic Club at Shadow Lawn, President Wilson said that in view of the position taken by Hughes and his imitators November would mean war in the success of the Republicans in some form or other with European powers and with Mexico. This is the only conclusion that can be drawn by the criticisms of the President's policies, which have averted war with honor to the nation and brought prosperity with the blessings of peace. Had Roosevelt been president he would now be involved in the world war, if his ravings are to be accepted with any meaning, and it is plain that it is the intention of Candidate Hughes if by any means he is permitted to become president, that he will so change our foreign policy that war will necessarily follow. Are the people of this happy land willing to rebuke the man who by diplomacy has accomplished all that could have been secured by war, which would mean a sacrifice of thousands of lives of the flower of the land, untold suffering and the expenditure of millions of dollars? Surely not, or reason and gratitude have fled the country. War means hell, death and destruction, the anguish of bereaved mothers, fathers and kindred. Its fearful consequences can hardly be estimated. Pray, ye mothers, and work ye fathers, that the grand man who has brought us safely out of every crisis, without a resort to force, may continue with his strong hand and steady purpose to guide the destinies of America. Vote for Woodrow Wilson and thereby help to avert a threatened calamity.

SAFETY FIRST.

Calomel! Sickens, Weakens and Often Salivates.

Calomel is not a safe thing to take internally because of its unpleasant after effects. Calomel being made of mercury is an unanytime to salivate you. Its natural remedy and is liable at any time to salivate you. Its action is so violent and its after effects so injurious that it is becoming less popular every day. People who believe in "safety first" are taking Lemolac in place of calomel. Lemolac possesses the virtues of calomel without its unpleasant and dangerous after effects. Lemolac does not gripe, sicken or weaken, and being purely vegetable, cannot salivate you.

We believe Lemolac will please you, as it is rapidly becoming the most popular liver medicine on the market, but will refund your money if you are not satisfied with it.—Helm & Ellison's.

DIPHTHERIA QUARANTINE.

Diphtheria patients must not be released from quarantine until two negative reports have been received from the State laboratory or a city laboratory, and scarlet fever quarantine must not be raised under 30 days, according to a recent ruling of the State Board of Health, which has been informed that county and city health authorities, acting independently, have been raising quarantine too soon in many instances. The diphtheria order means that the health officer must have two analysis taken at different times at the laboratories and must not raise the quarantine until the analysis shows that germs have disappeared.

SEED COTTON REACHED \$7.50 HERE SATURDAY.

Cotton prices last Saturday, plus the large amount of the staple received, made both the planter and local merchant prosperous for a day, at least. Ginners paid as high as \$7.50 for cotton in the seed, and most any grade brought up to \$7.00 per hundred. This lacked only a quarter of a cent of making seed cotton bring as much last Saturday as lint sold at on an average for 1914-15. Of course, this was the highest price paid for cotton here in more than a quarter of a century. On the same day Col. C. L. Walker was offered \$7.65 for his entire crop of Weber cotton, but he refused this offer. If this could have been construed as a sale, the high-water mark should be 15c higher than the actual recorded sales at \$7.50.

There has been some talk of Se cotton, and now this talk is common. If it should reach 8c, then folks would begin to predict 9c and so on, and where the market will stop is a matter of wild speculation. And then there is always the probability of a reaction and general decline.

IN REACH—OR OUT?

Suppose a fire broke out today in the house, office or store adjoining you how would you stand in regard to a fire insurance policy? Have you got one at all? Is it in a sound and reliable company? Now is the best time to think about it and to take out a policy if you haven't one. You can't get it afterwards you know. See us about a policy at once. The cost is small—the benefits great.

She was engaged to marry a foppish lord whom her father had chosen for her, but her heart was given to another. On the night of the engagement party she was ready to elope with the man she loved, and actually arrived at the trysting place, when something happened that changed the whole course of her life and led her finally behind convent walls, from which she was never to emerge. Meanwhile war had cast its shadow upon her life, time worked many changes, homes were wrecked and events that followed altered the verdict of fate so completely that what promised to become the story of happy lives and peaceful homes turned into deepest tragedy. MASKED MEN BEAT UP CLINTON FARMER.

An outrage as mean as it was cowardly was perpetrated Friday night when Paul Berry was dragged from his bed by four masked men and outrageously beaten.

On the night in question Mr. and Mrs. Berry had retired for the night and at a little past 8 o'clock were awakened by a flash of light in their faces and a voice behind a mask, telling Mr. Berry to get up. Not moving as fast as they thought he should Mr. Berry, with his wife clinging to him, was dragged from the room out into the yard and mercilessly beaten. In her efforts to help her husband Mrs. Berry was roughly handled being scratched about the face and sustaining ugly cuts and bruises about the body. In the struggle she tore the mask from the face of one of the men and in return was knocked ten feet from where she stood.

Mr. Berry was beaten across the back and those who saw the bruises say he must have received fifty blows from a stick. After the beating the man was left in an exhausted condition.

Early the next morning blood hounds were on the scene and the trail they followed led to the home of the man from whose face the mask had been torn.

Saturday morning Mr. and Mrs. Berry came to town and warrants for the arrest of the men were sworn out.

The injured man is the son of Mr. and Mrs. T. P. Berry of this place. The four men implicated have been arrested and the leader is out on a \$2000 bond, two of the accomplices are under a \$1000 bond each and the fourth man is under a bond of \$500. —Clinton Gazette.

Attending Prayer Meeting

By REV. JAMES M. GRAY, D. D.
Dean of Moody Bible Institute,
Chicago

TEXT—Not forsaking the assembling of ourselves together as the manner of some is.—Hebrews 10:25.

The weekly prayer meeting has been called the pulse of the church, but it is more; it is really the heart itself; it is the ideal church in worship; it is the church gathering of the Apostolic days.

There were two forms of public worship among the Jews in Christ's day, the temple and the synagogue. The first was ritualistic and select in the sense that the priests and Levites conducted it. The second was simple and democratic in the sense that all the people took part in it. There was only one temple and that was located in Jerusalem, but there was a synagogue in every town where as many as ten male Jews resided. Its order of service consisted merely in the reading of a portion of the law and the prophets, the chanting of a psalm and an extempore prayer. Then the meeting was thrown open, as we now say, and the people (the men at least) were at liberty to take part.

The Christian church is built, not on the model of the temple but the synagogue, as we see from Paul's first Epistle to the Corinthians where, at chapter 14, he is correcting certain disorders that had crept into the assembly because of the liberty thus granted to the people.

A Popular Gathering.

Our text applies to such a gathering as this. That is to say, the writer has in mind not a formal service, such as is represented at a Sabbath gathering in one of our present churches, but a popular gathering of the people where the meeting is thrown open for all to exercise their spiritual gifts. It is just such a gathering as a prayer meeting always ought to be.

(1). He enjoins such an assembling of ourselves together as a duty to be obeyed. We ought not to forsake it, just as in other places God tells us not to commit murder, not to steal, not to be guilty of adultery, not to bear false witness, so here we are not to forsake the assembling of ourselves together. In other words it is a command that Christians cannot escape.

(2). It is a privilege to be enjoyed, for the context tells us that thus by prayer we have "boldness to enter into the holiest by the blood of Jesus," and that we have "an High Priest over the house of God." This being the case, what blessings are we being denied if we thus forsake the assembling of ourselves together!

Some of these blessings are of a very practical every-day sort. The Continent tells of a business house in Chicago which asked a country correspondent to recommend a man for a responsible position. The reply was, "A young man passes my house every Wednesday evening on his way to prayer meeting at precisely a quarter of eight. I like the looks of that. Shall I inquire further about him?" The result was a position at a salary larger than the young man ever dreamed of receiving. The editor added what is entirely true, that the prayer meeting habit is a good asset. The prayer meeting young man is likely to have the right basis of character. There are hypocrites there, but that is an evidence of the genuine.

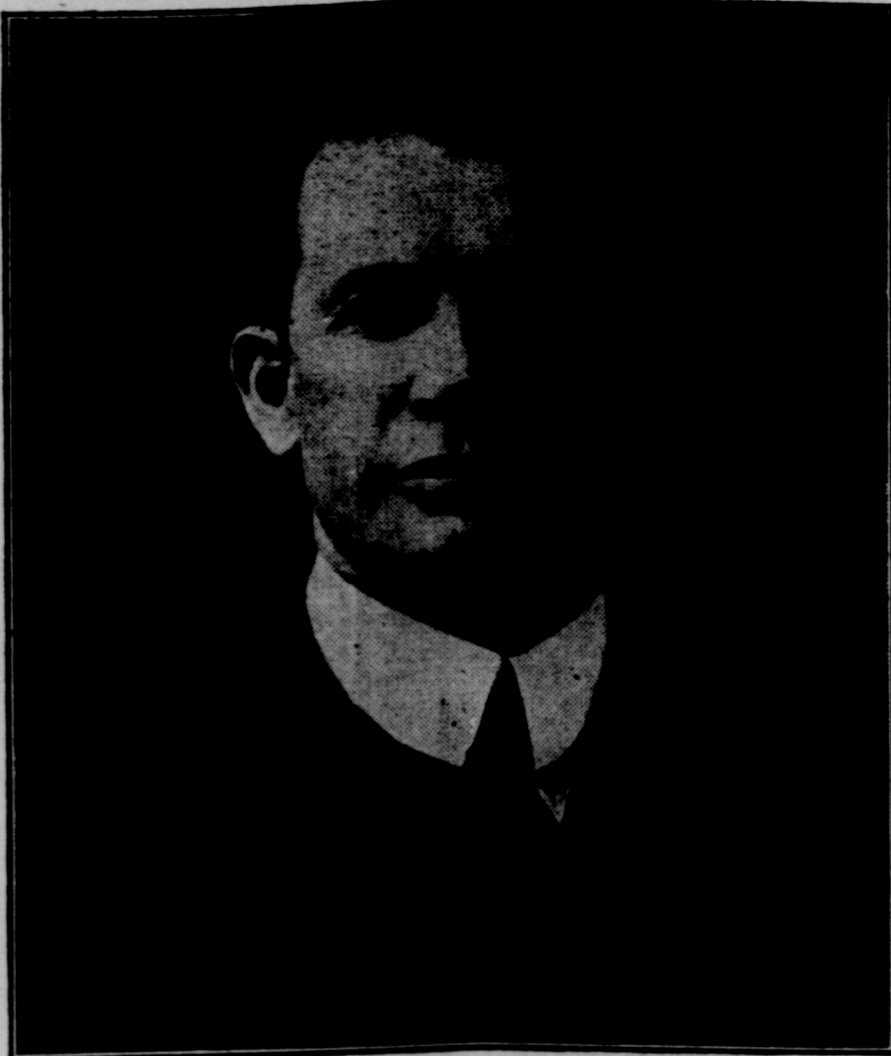

(3). It represents a need to be supplied, for the context says, "Let us hold fast the profession of our faith without wavering and let us consider one another to provoke unto love and to good works." The relation of our Christian experience in the prayer meeting and the exhortation and appeal that accompany it, express our consideration for one another as brethren in Christ, and the result is stimulating unto love and to good works. It is thus that we are able to hold fast the profession of our faith.

There was a man, the father of a family that attended my church at one time, who resisted all my appeals to win him to the Savior, and his wife told me he had resisted similar appeals from her former pastors. By and by on his death bed he accepted Christ and witnessed a good confession before his family and friends.

One day I asked him what was the cause of his conversion, and found that he attributed it to no sermon he had ever heard, but to the testimony of an elderly woman in a prayer meeting in the country town where he lived more than 40 years before.

He resided with an aunt who compelled him to go because she would not leave him alone in the house during her absence. He hated to go, but he had to go, and there he heard the testimony of this woman from which he had never been able to get away. Now that he was facing eternity it had moved him to receive and confess Christ.

Let me urge you to stand by your church prayer meeting, and to do your part to make it of vital value.

REMEMBERING FACES.

Hotel clerks have a way of recognizing guests as soon as they sign a register. The most successful hotel keepers have to have this power of remembering the faces of their guests and all about them or they would soon lose their custom by the mistakes they would make.

Bank cashiers carry in their memories the faces and signatures of most of the customers of the bank.

Detectives, too, get into the habit of remembering the faces of everyone with whom they have to deal, whether criminals or not.

"I don't think I have ever forgotten a customer," a clerk in one of the big safe deposits recently said. "There are hundreds of safe-deposit boxes rented in our vaults, and I can generally remember, without referring to our books, the name, number and password of each customer."—Exchange.

ONE OF NAPOLEON'S IDEAS

He Founded St. Cyr Military Academy to Get Cavalry Leaders From Good Families.

The great French military academy of St. Cyr, about which so much is heard in these days, was, of course, founded by Napoleon. One of Napoleon's chief military difficulties was to obtain officers for his new armies, and it was mainly with a view to overcoming this difficulty that he organized the great military college at St. Cyr-L'Ecole. He specially wanted to secure good cavalry leaders, and convinced of the necessity of such leaders being of "good family," he issued the curious instruction that those who fulfilled requirements in this respect should be "examined with indulgence as regards knowledge of arithmetic and geometry."—Christian Science Monitor.

SPREADING LOS ANGELES.

Los Angeles is the largest city in the United States. Someone will doubtless arise to controvert this statement by a show of figures. But the fact remains that Los Angeles is the largest city—in the matter of area. Through recent annexations the City of the Angels now includes a territory of 337.92 square miles, against 314.75 for New York, 198 for Chicago, 129 for Philadelphia and 53.29 for Minneapolis. The haste of the suburbs of Los Angeles to get in under the city limits, where the taxing is good, is due to the desire to get the city's water. Water in California is liquid happiness, and Los Angeles has recently completed a \$23,000,000 aqueduct that brings the best of water from the mountains. The city is not permitted by the laws to sell water outside of the limits, hence the desire of the outlying districts to get in. This 337.92 miles of area in Los Angeles helps to explain the 550,000 population now claimed for the city. As long as the water and the climate hold out, these figures will continue to grow, till the saturation point comes.

THE NEST EGG.

"Say, Jim," said the friend of the taxicab driver, standing in front of the vehicle, "there's a purse lying on the floor of your cab."

The driver looked carefully around and then whispered:

"Sometimes when business is bad I put it there and leave the door open. It's empty, but you've no idea how many people jump in for a short drive when they see it."

Good to Remember.

Every young man should remember that if his income is just a little above expenses every day, he will eventually become well off. If his receipts daily lack a little of meeting his expenditures, he will in time become a candidate for public favors at the poorhouse. Honest work at any calling and such economy as the case requires is honorable; while idleness and spendthrift habits are a disgrace to anyone, young or old.—New Canaan (Conn.) Advertiser.

MRS. MATTIE MADDOX DEAD.

The remains of Mrs. Mattie Maddox, wife of Lee Maddox, were brought from Martin, Tenn., to State Line and interred at Paplar Grove at two o'clock yesterday afternoon. Mrs. Maddox was about 38 years of age and formerly resided in the State Line vicinity, having left there about eight years ago. Typhoid fever caused her death. She is survived by her husband and 3 sons. She was a daughter of Madison Kimblin.

Cremation.

The process of cremation is as follows: The casket is lowered into the incinerating room, the metal handles and name plate are removed, and it is put into the retort. The heat is so intense that after a few hours only the ashes of the bones remain, all else, including the structure of the casket, having disappeared in light ash or gaseous products. The casket screws and nails are removed by a magnet and about four ounces of pure ash remain.

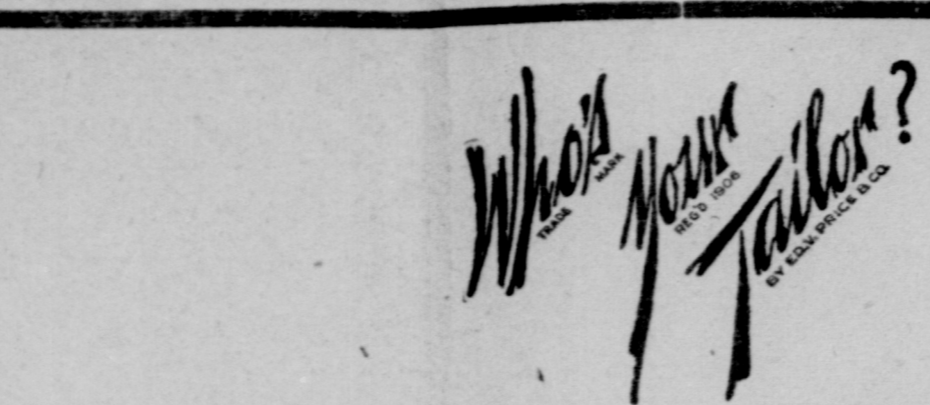

Miss Marie Brevard entertained Monday evening at six o'clock in honor of her bridal party. A five course dinner was very much enjoyed. Those present were: Rev. K. C. Douglass, Irvin Brevard, J. H. Millet, R. A. Tyler and Miss Marguerite Fuqua. Out of town guests: Mesdames Harry Calcutt, of Dyersburg, Lottie Maddox, of Shelbyville, Ky., Messrs. Davenport and Dupont Guerry, of Macon, Ga., and Frank Smith, of Martin.

The Searchlight.

It is the course of mortal things that the good should be shadowed by the bad, and virtue shine the brightest when contrasted with vice. Whoever proposes to discourage vice and to vindicate religion, morality and social order against their enemies must unveil crime in all its deformity and place it before the eyes of men in its colossal magnitude; he must diligently explore its dark mazes and make himself familiar with sentiments at the wickedness of which his soul revolts.—Schiller.

DELICIOUS TIDBITS.

Olives stuffed with caviar make a most tasty tidbit to serve as a garnish for roast duck. The best way is to use the olives already stuffed, removing the pepper or almond, or whatever it is stuffed with. This may be used in sandwiches. Fill the olives with caviar, being careful not to break them.

Lemon Jelly With Apples.—This is a delicious dish to serve as accompaniment to roast fowl. Cut good-flavored, firm apples in quarters or eighths and cook in hot sirup until tender; then place in a fancy dish and pour over a lemon jelly and set away to mold. When unmolded and chilled it makes a most attractive dish.

College Sandwiches.—To those who have never tried these nourishing dainties, there is something to look forward to. Spread peanut butter on two half cakes of sweet chocolate and put together in the form of a sandwich.

Lemon Sauce.—This is an unusual sauce to use for a steamed pudding. Beat an egg and add brown sugar enough to make it of the consistency of hard sauce, then flavor with a few drops of lemon, pineapple and orange extract.

Banana Whip.—Mash six ripe bananas with a cupful of granulated sugar, the juice of a lemon and a pint of whipped cream, with vanilla to taste. Mash the bananas, add the sugar and the lemon juice, put over the fire until the sugar is dissolved, but do not boil; add a fourth of a teaspoonful of vanilla and put aside to cool. When cold fold in the whipped cream, which has been sweetened with two teaspoonfuls of sugar and a few drops of vanilla. Beat together carefully and serve in sherbet cups garnished with chopped walnuts.

Lemon Ice.—Take three pints of water, the juice of six lemons, three cupfuls of sugar and the whites of two eggs. Cook the sugar and water together ten minutes. Cool, add the lemon juice and freeze. When partly frozen stir in the beaten whites.

him all the assistance possible. As an extra attraction he has arranged for a quartette and orchestra, which will attend all the speakings. The singers are J. W. Roney, Joe Engle, Pete Leibovitz, John Fethe and A. E. Owen. The speakers for the two weeks will be composed of the following: Judge Stahr, J. W. Roney, W. J. McMurtry, D. McNeil, Tom Powell, F. S. Moore, M. B. Shaw, W. B. Amberg, and several from Fulton. All of these will not speak each night, but at least two of them will speak. The lawyers of this county have no mean ability as speakers and debaters and they will have something to say that all should hear. The speaking will begin promptly at 7:30 on the following dates:

Simmons School House, Monday, Oct. 16.
Fairview, Tuesday, Oct. 17.
Graves, Wednesday, Oct. 18.
Jordan, Friday, Oct. 20.

MID-NIGHT FIGHT IS SOURCE OF MYSTERY.

An unusual and unexplained occurrence happened about midnight Sunday that gave folks in the immediate vicinity a creepy sensation and a feeling that "bloody murder" was being committed right in their midst. From what we gather, occupants of the La Clede Hotel and others in adjacent buildings heard a woman's voice threatening a man, while the man was using ugly language. She said two or three times, "get out of here or I'll shoot you." Then a blow was distinctly heard as though the man had struck the woman, followed immediately by cries of "help, help," by the feminine voice. The woman's voice grew fainter and fainter with each call—until it could be heard no more, and all of those hearing the racket are agreed the woman was being choked by the strangling effect of her voice.

J. O. West, the hotel manager, and many of his male guests, dressed hurriedly and ran down the back street in an effort to render aid, but when they reached the back of the hotel, all was quiet. Just what happened and who was involved is still a mystery. Those who heard the woman's screams for help and the muffled blow just before, believe the woman met with foul play. The supposed tragedy, was heard by a number of people, but none could locate where it was, though it was within ear-shot of the hotel and occupants of the quarters above Barrett & Ledford's store. Local officers have been able to gain no clue to the affair.

Later: Since the above was put in type, we learn that the city sleuths have a clue to this affair, but are divulging no names.

FOR FALL WEAR

This waterfall monkeyskin dress is for early fall wear. The edge of the skirt, the cuffs and the little band on the collar are of a heavy velour. The collar is unusually high and does not insure comfort, even in the early fall. The dress is extremely simple in its cut and trimmings but nevertheless is as dainty and pleasing a garment as any fair lady would wish to wear.

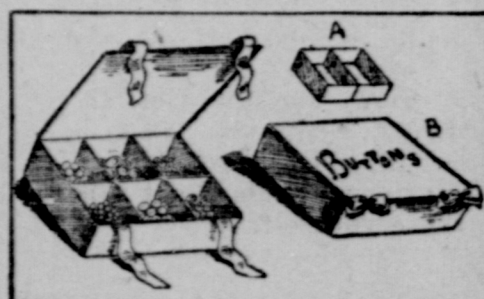

KEEP THE BUTTONS APART
Box Provides Receptacles in Which They Can Be Divided and Selected When Needed.

Most of us know how difficult it is to find any particular button that may be required when buttons are kept loosely mixed together in a work-bag or work-box, so that it is well worth while to prepare a receptacle for them in which the different kinds can be kept separate from each other.

We give a sketch of a neat little article for this purpose that is composed of six small cardboard boxes all of the same shape and size. The boxes are placed side to side and joined together with paper fasteners, and diagram A shows two of the boxes fastened together in this manner. No difficulty will be found in doing this, and the interior of the divisions so formed can then be lined with thin white silk.

The sides of the boxes are covered with dark green silk, tacked on to the edges and then turned over underneath and fastened down with a strong adhesive.

The cover is made of dark green silk or linen, lined with thin white silk and

edged with gold silk cord, and ribbon strings are sewn on in front to secure the cover when it is drawn over the boxes. Diagram B shows this done, and the word "Button" can be worked where indicated with gold silk.

KNITTED WORK IN FAVOR

Parisian War-Relief Workrooms Largely Responsible for Idea That Is Exceedingly Pretty.

Paris is flooded not only with rain but with the products of war-relief workrooms. Something new, pretty and practical has been developed recently by one of these organizations; this is the crocheting or knitting of collars, cuffs and decorative trimmings for dresses. This crocheting or knitting is done in bright-colored woolen yarn, which looks astonishingly pretty on frocks of dark serge or velvet. Sometimes a flower or geometrical design of another color is knitted into a cuff or revers with very good results. An odd necklace for a child is made of bright-colored knitted woolen beads, strung on a black silk cord. Knitted woolen cravats are effective on school frocks for children, and the little hands of these same small people may be thrust into tiny knitted muffs edged with narrow bands of fur. Knitted hats, trimmed with knitted flowers, are also edged with fur. The knitting needle has lately been responsible for very much.—From Vogue.

WEDDING BELLS

GUERRY-BREVARD NUPTIALS.

One of the most beautiful and impressive weddings ever solemnized in Hickman was that on Tuesday evening at 7:30 at the First Methodist church when Miss Marie Brevard, of this city, became the wife of Davenport Guerry, of Macon, Ga., the double ring ceremony being pronounced by the Rev. R. C. Douglass. The color scheme of pink, white and green prevailed and was most effectively carried out in the decorations of the church; the pulpit being raised with tall, white columns, vine entwined and studded with pink roses being festooned from column to column, masses of pink roses dotting the entire altar, with banks of ferns at the sides and back, large vases of chrysanthemums on either side, and the windows decorated with masses of pink and white cosmos and vines.

Just before the arrival of the wedding party, Mrs. Henry L. Amberg sang "A Perfect Day" and "I Love You Truly," with Miss Marguerite Fuqua presiding at the pipe organ and J. H. Millet on the violin. As the wedding party entered the church, the Methodist choir sang the Wedding Chorus, and during the ceremony, Miss Fuqua and Mr. Millet softly played "Somewhere A Voice Is Calling." After the ceremony, as the party left the church, they played Loehengrin's Wedding March. Messrs. Irvin Brevard, brother of the bride, Claggett Martin, of Martin, Frank Smith, of Martin, R. A. Tyler, of Hickman, Vance J. Alexander, of Nashville, cousin of the groom, were ushers, and preceded the wedding party as they entered, being followed by Masters Reid Bondurant and Wilson Randle, who were ring bearers, each carrying a huge white chrysanthemum. These were followed by Mrs. D. Maddox, of Mayfield, and Mrs. Harry C. Calcutt, of Dyersburg, who were Matrons of Honor. Little Miss Leonora Amberg, dressed in white, was flower girl, carrying a pink and white basket and scattering pink rose petals being followed by the bride on the arm of her father, R. B. Brevard, and the groom with his brother, Dupont Guerry, of Greenville, South Carolina, who was best man.

The bride wore a charming dress of cream satin and lace, with long court train of white satin, tulle wedding veil that hung nearly to the end of train, the veil being caught with orange blossoms and she carried lovely shower bouquet of brides roses and lily of the valley. Mrs. Calcutt wore a charming creation of pink tulle and white lace, with trimmings of gold and carried huge bouquet of pink Killarney roses and Mrs. Maddox wore lovely gown of white tulle and pink flowered taffeta with gold trimmings and carried pink Killarney roses. The little flower girl and ring bearers were dressed in white, and the gentlemen in conventional full dress attire of black.

The ceremony by Rev. Douglass was very impressive and the double ring ceremony beautiful; being one of the prettiest weddings ever witnessed here. Immediately after the ceremony the bride and groom left for a visit in the South, possibly in South Carolina, but did not make their destination known. Many of their friends assembled at the depot to bid them adieu, but the bride and groom stole a march on them and departed in an automobile for Fulton. The bride is one of the best known ladies in Hickman, the only daughter of Mr. and Mrs. R. B. Brevard, and a lady of unusual vivacity and brilliancy. She is popular in Hickman's social circles, a prominent worker in the Daughters of Confederacy, and has a host of friends not only here, but throughout the South. The groom is a resident of Macon, Ga., a prominent lawyer of that city, being a member of a well known old family and well known to a number of Hickman people, having visited here several times. The wedding is culmination of several years' romance. After a few weeks wed-

LEDWIDGE-UMSTOTT.

The Courier failed to make mention last week of the marriage of Mrs. Georgia Umstott and John Ledwidge. The ceremony was performed by and at the home of Judge Elvis J. Stahr. The bride is a daughter of Sam Brown and a charming young woman. The groom is a son of Jas. B. Ledwidge, a popular young man and well known here. He is now a resident of Centralia, Ills., to which place he returned. His wife will join him later and they will make their home at that city. The Courier joins friends in wishing Mr. and Mrs. Ledwidge a long and happy life.

NO MORE NEW CASES OF SCARLET FEVER REPORTED.

Owing to the number of cases of scarlet fever reported last week, Drs. J. M. Hubbard and H. E. Prather, city and county health officers, issued a warning circular to parents, advising them to keep children under 15 years of age away from all public gatherings. Fever was reported in the following homes:

Frank Von Borries
Julian Choate
Bynum Parham
Ohas. Rutter
Will Hammond
Ed Pierce
Lush Moore
Jas. McMullin
Jim Burchett.

These homes were placarded Monday and no new cases or fatalities have developed; in fact, the fever seems to be of a mild form. Every precaution has been taken to prevent a spread of the disease and the health officers feel confident that they have the situation well in hand.

KEEP YOUR SHOES NEAT

SHOE POLISHES

A combination of both liquid and paste. They produce a brilliant, lasting shine with very little effort. These polishes contain no acid and will not crack the leather. They preserve the leather and increase the life of your shoes. THE F. F. GALLEY CO., LTD., BUFFALO, N.Y.

Infant's Educators

THE HUMAN foot should be allowed to grow naturally. To shape it to the changing fashion is to force the soft, pliable, growing bones, cords and muscles into unnatural and deformed shapes.

The foot thus pinched from its natural shape is often a source of suffering in later life. These pictures show the right and wrong way of shoeing the infant's foot.

Flexibility, lightness, and wear are provided by specially selected soles. Soft pliable leather, that readily yields to every movement of the tender foot, is selected for the uppers of the Infant's EDUCATOR.

The very smallest ones, intended for two-year old babes are called FIRST STEPS.

Children's Educators

EDUCATOR SHOES for children are designed to be the best wearing shoes possible to produce by the most progressive shoemaking methods.

EDUCATORS cost a few cents more than ordinary child's shoes, but these few cents are in the shoes and mean double service and much longer wear. The price is low considering the quality.

The Goodyear Welt sole fastening on Educators insures flexibility and comfort. The uppers are carefully selected from high grade stock, and the inner soles are smooth and soft to the child's feet.

Boy's Educators

THE HARD service which an active boy gives his shoes is too well known to require comment.

The Boys' and Little Men's EDUCATORS are fastened by a short stitch in channel, warranted not to rip or peel. The shoes are strong without being clumsy, and must be seen and worn to be properly appreciated.

If you would have your child thank you for perfect feet in later life try these nature-shape EDUCATORS.

BIG CROWD ATTENDS SUN BROS. CIRCUS.

While the attendance was not as large as upon occasions of some of their former visits, Sun Bros. circus drew a large crowd here Monday, especially at the afternoon performance. Hundreds of Hickmanites did not go on account of the diphtheria and scarlet fever scare, as County Health Officer Dr. H. E. Prather and City Health Officer Dr. J. M. Hubbard had previously issued a warning against taking children to shows and public gatherings.

The exhibition is said to have been as good as one would have expected of the smaller circuses, having well trained animals, fine acrobats and funny clowns.

The free street parade was cut out, since the city imposes a license of \$100 for this feature.

A load of cotton, wagon and all, came near burning Saturday, while waiting its turn at the gin. It is thought sparks from a passing train started the fire.

NEGROES LEAVING SOUTH.

Many leading industrial operators of the South are beginning to regard with alarm the large exodus of negroes from this and other Southern States to New York, Pennsylvania, Illinois, Indiana, Ohio, Missouri and West Virginia.

When the exodus started several months ago it was not seriously considered. Later it was learned that labor agents from the States mentioned were active in Alabama and the South, were offering more wages for common labor, and were persuading rapidly increasing numbers of negroes to leave. Now negroes are going from the south by the thousands for the east and center west, and already fears of a serious labor shortage in the South are entertained. Several hundred have left Fulton county in the past 60 days—but local planters say some of these are returning home wiser for their experience.

Bernice Parham has recovered from a mild case of scarlet fever.

County School Notes

County Supt.

Sycamore Chapel cleared about \$30.00 at the box supper last week. One of the first improvements this district is planning to make is a fence around the school yard. We are glad that a number of districts are arranging to have the grounds fenced.

Friday is "Library Day" at all rural schools.

The parents of New Hope are all invited to meet at the school Friday afternoon. Let all, who can, be present and thus encourage both teacher and pupils in the excellent work they are doing.

We have a number of good School Improvement Leagues in the county, and will be glad to assist any other district in organizing if they are interested and wish assistance. Districts now organized are: Taylor, Lodgton, McFadden, Cayce, Sylvan Shade and Crutchfield.

The Fulton County Levee Board has held one or two meetings since this time last week to try to restore order where chaos has existed since a decision rendered by Judge Gardner in Fulton Circuit Court, which in a way got the board up in the air by curtailing its taxing power. Nothing tangible has developed as regards the board's future intentions. The members generally feel that the board at present is a legal non entity, and are not able to proceed with much needed levee improvement at mile four, for which bonds have been issued and sold and everything was in readiness for the work. The gentlemen composing the board feel that it is of vital importance that some action be taken as regards the future, if not the present, but what the step will be is a matter yet to be determined. Failure to keep the levee in shape would mean the loss of hundreds of thousands of dollars and the efforts and plans of many years reduced to naught.

If your child starts in its sleep, grinds its teeth while sleeping, picks at the nose, has a bad breath, fickle appetite, pale complexion, and dark rings under the eyes; it has worms; and as long as they remain in the intestines, that child will be sickly. Women Once Invalids

Now in Good Health Through Use of Lydia E. Pinkham's Vegetable Compound. Say it is Household Necessity. Doctor Called it a Miracle.

All women ought to know the wonderful effects of taking Lydia E. Pinkham's Vegetable Compound even on those who seem hopelessly ill. Here are three actual cases:

Harrisburg, Penn.—“When I was single I suffered a great deal from female weakness because my work compelled me to stand all day. I took Lydia E. Pinkham's Vegetable Compound for that and was made stronger by its use. After I was married I took the Compound again for a female trouble and after three months I passed what the doctor called a growth. He said it was a miracle that it came away as one generally goes under the knife to have them removed. I never want to be without your Compound in the house.”—Mrs. FRANK KNOBL, 1642 Fulton St., Harrisburg, Penn.

Hardly Able to Move.

Albert Lea, Minn.—“For about a year I had sharp pains across my back and hips and was hardly able to move around the house. My head would ache and I was dizzy and had no appetite. After taking Lydia E. Pinkham's Vegetable Compound and Liver Pills, I am feeling stronger than for years. I have a little boy eight months old and am doing my work all alone. I would not be without your remedies in the house as there are none like them.”—Mrs. F. E. Yost, 611 Water St., Albert Lea, Minn.

Three Doctors Gave Her Up.

Pittsburg, Penn.—“Your medicine has helped me wonderfully. When I was a girl 18 years old I was always sickly and delicate and suffered from irregularities. Three doctors gave me up and said I would go into consumption. I took Lydia E. Pinkham's Vegetable Compound and with the third bottle began to feel better. I soon became regular and I got strong and shortly after I was married. Now I have two nice stout healthy children and am able to work hard every day.”—Mrs. CLEMENTINA DUERRING, 34 Gardner St., Troy Hill, Pittsburg, Penn.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice,—it will be confidential.

AT NAPOLEON'S TOMB.

(By Robt. Ingersol.)

A little while ago I stood by the grave of Napoleon—a magnificent tomb of gilt and gold, fit almost for a deity dead and gazed upon the sacrophagus of rare and nameless marble, where rest the ashes of that restless man. I leaned over the balustrade and thought about the career of the greatest soldier of the modern world.

I saw him walking upon the banks of the Seine, contemplating suicide. I saw him at Toulon—I saw him putting down the mob in the streets of Paris—I saw him at the head of the army of Italy—I saw him crossing the bridge of Lodi with the tricolor in his hand—I saw him in Egypt in the shadow of the pyramids—I saw him at Marengo—at Ulm and Austerlitz. I saw him at Russia, where the infantry of the snow and the calvary of the wild blast scattered his legions like winter's withered leaves. I saw him at Lipsie in defeat and disaster—driven by a million bayonets back upon Paris—clutched like a wild beast—banished to Elba. I saw him escape and retake an empire by the force of his genius. I saw him upon the frightful field of Waterloo, where change and fate combined to wreck the fortunes of their former King. And I saw him at St. Helena, with his hands crossed behind him, gazing out upon the sad and solemn sea.

I thought of the orphans and widows he had made—of the tears that had been shed for his glory, and of the only woman who ever loved him, pushed from his heart by the cold hand of ambition. And I said I would rather have been a French peasant and worn wooden shoes. I would rather have lived in a hut with a vine growing over the door, and the grapes growing purple in the amorous kisses of the autumn sun. I would rather have been that poor peasant, with my loving wife by my side, knitting as the day died out of the sky—with my children upon my knees and their arms about me—I would rather have been that man, and gone down to the tongueless silence of that dreamless dust, than to have been that impersonation of force and murder known as Napoleon the Great.

NEURALGIA PAINS YIELD QUICKLY.

Hundreds Find Sloan's Liniment Soothes Their Aches.

FIRE ENGINE MAKES AN EARLY MORNING RUN.

Fire Chief W. B. Posey made his first run for a fire at three o'clock Saturday morning, when a small frame dwelling in East Hickman was destroyed by fire. The alarm did not come in until the house was too far gone to save it. It was a frame house of about four rooms, belonging to Horace Wheatley and occupied by Allen Greer, both colored. Most of the contents were also lost, as the occupants did not wake up until the smoke began to strangle them. How the fire started is not known.

Chief Posey's first run was right up to the standard. He made the trip from the west end of town, where the machine is being kept temporarily, to the east end in three minutes, and seven of the regular crew boarded the engine enroute. As the building was almost burned down, the hose was not coupled up, but the crew remained on the job with hand extinguishers to prevent the spread of the flames. This is the first fire we've had since July 12th, and the new engine has been in commission since July 25th.

NOT AN ISOLATED CASE.

Many Similar Cases In Hickman And Vicinity.

This Hickman man's story given here is not an isolated case by any means; week after week, year after year, our neighbors are telling similar good news.

C. A. Watson, Hickman, says: “I suffered from pains in the small of my back, which were always more severe if I stooped or lifted. My back ached at night and in the morning I was nearly lame. I tired easily and occasionally had nervous spells. Headaches bothered me and I was subject to dizzy spells, when my sight blurred. Colds stealed on my kidneys and the passages of the kidney secretions became too frequent. This was particularly annoying during the night and I was often obliged to get up several times. I got Doan's Kidney Pills at Helm & Ellison's Drug Store, and one box cured me.”

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Mr. Watson. Foster-Milburn Co., Props., Buffalo, N. Y. Advt.

Elsewhere in this issue will be found a large announcement concerning a small advance in the subscription rate of the Courier, effective after the first of the coming month, namely: \$1.25 a year. However much we regret this step, we cannot avoid it. In order not to take “snap” judgment” in this matter, we are giving our readers until the first of next month to take advantage of the old rate of \$1.00 a year. If you are already paid up and wish to extend your time still further ahead, we will credit you up at the rate of one dollar a year, if you pay before the first of next month. After Nov. 1st, the rate will positively be \$1.25 a year; 65c for six months and 35c for three months.

There comes glowing reports from every section as to the quail crop. In every neighborhood the birds are reported to be more plentiful than for years past and the hunters are looking forward to extra good shooting. But they will find the land owners more disposed to keep indiscriminate hunters off their grounds and permission had better be secured before entering any field. Another thing this year which will have a direct influence on the quail shooting is the new law which limits each hunter's kill to twelve birds per day. In times past it has often been nothing short of wanton slaughter; when no limit was set hunters were allowed to kill all the birds they could.

Don't forget that the Courier gives 2000 votes on each dollar subscription received on Wednesday and Saturday. Subscribe now and help your favorite win the automobile or some of the other valuable prizes.

Last week the Cumberland exchange at Hickman made an actual count (which they do once each year) of the number of calls received in 24 hours. OVER CONFIDENCE DANGEROUS.

While there is every indication that Kentucky will go for Wilson by a large majority the consummation devoutly to be wished can be accomplished only by every Democrat doing his full duty. The enemy is making strenuous efforts to win the prize, with money and other devices known to those who are not above doing anything to accomplish their purpose. Tainted money is being poured into the State and if it can seduce enough voters to change their allegiance the results may be problematical. Fortunately, however, the Republicans have little confidence that they can carry Kentucky even with Wall Street's aid and are making the efforts of their lives to hold even their own, as is shown by trotting Candidate Hughes through the State again, much of it through the territory held by them, and of which they now seem in no wise certain. They are going to contest every inch of ground, however, and Democrats must be alert. Let eternal vigilance have full sway and never say quit till a glorious victory is won. The Courier advice is stand on your arms, and if you must sleep on them do it with one eye open and then we can exult with exceeding great exultation.

All you who have torpid liver, weak digestion or constipated bowels look out for chills. The season is here and the air is full of the disease germs. THE HICKMAN COURIER

\$1.25

ON AND AFTER NOV. 1

On and after November 1, 1916, the subscription price of The Hickman Courier will be \$1.25 a year—six months for 65c—three months for 35c.

We are compelled to charge 25c more on the year on account of the extra-ordinary advance in the price of paper, ink, type, etc. While we regret very much to make any change in our established, popular price of one dollar a year, still we are forced to do so.

Most country papers are advancing the rate, to \$1.50 per year (and even at that price they will make less money than at \$1 before the war), and are cutting down the number of pages, but the Courier prefers to keep the paper up to the present standard and stand a part of the loss by charging only \$1.25. No paper under the sun can, under the present circumstances, mail out 50 copies of the paper, with an average of 12 pages each at even \$1.25 and make a cent on subscription; it is merely a matter of trying to make subscription pay its own way. Every intelligent reader knows that the money in the newspaper business is made on advertising and job work. By careful calculation, we find that from Sept. 1, 1915, to Sept. 1, 1916, it cost us \$1.144 to send you the Courier during the year—and two heavy advances in paper have occurred in the past three months, which will make the cost for the coming year about \$1.25.

All subscriptions paid before November 1 will be accepted at the old dollar a year rate; thus giving our readers due notice and a chance to save the extra 25c if they choose to do so.

We can make no promise as to how long the \$1.25 rate will be effective—as we do not know when the price of paper will decline. It is now 250 per cent higher than in 1914, and ink and type have also advanced 200 per cent.

For two years we have held our rate down—even though losing money—hoping that the paper market had reached its limit. On the contrary, our next shipment will cost \$20.00 a ton more.

Our readers will certainly grasp the situation and appreciate our predicament, which is unavoidable. We must either get more for our paper or quit business. The 25c extra you will pay will not go into our pockets, but to the paper trust, but we are unable to help it.

Kindly remember that the new rate will be effective Wednesday, November 1st, 1916.

Very respectfully,

SPEER & SEXTON, Publishers.

WOMAN CHARGED WITH KILLING HER BABY.

The discovery of a newly-born infant buried in an alley in the rear of George Giles' home in East Prairie Friday morning resulted in the mother, Mrs. Katie Brown, being held charged with causing the child's death.

Mrs. Brown, who said she was a widow, came here from Morehouse Wednesday and asked that she be allowed to stay at the Giles home until she could collect some money she said was owing to her from a man here. She was allowed to stay and given a room upstairs.

Thursday night Mr. Giles thought that he heard a baby's cry but dismissed it from his mind until Friday morning when his suspicious being aroused by various circumstances, made an investigation and discovered the body buried under several inches of earth in the alley.

A post mortem examination of the child was made by Coroner Howle and Dr. F. L. Finley who said that the presence of air in the lungs showed that the child was living when born and a rupture of the blood vessels in the lungs was an evidence that the child had been smothered.

The jury's verdict was that "We find that Katie Brown was the mother of the child whose body was found in the rear of the Giles home in an alley, and that the child came to its death by its mother's hands."

Esq. Chunn committed the woman to jail without bond to await the action of the grand jury.

Katie Brown is about 34 years of age and came originally from near Perryville, but more recently from Morehouse.—East Prairie (Mo.) Eagle.

TWO SUITS IN ONE MONTH.

John Thomas Curd has just filed sensational charges against his wife, Lillian Curd, in a petition for divorce. The unusual feature about the case is that this is the second divorce petition that the plaintiff has filed within the present month. The first was filed at Paducah. He says in his petition filed this week that they were married on July 6, 1913, and later went to live with her mother, first in this city and later at Water Valley. Her mother's name is Mrs. Martha Walton. It was while they were living at Water Valley that Curd accuses his wife of having left home with another man, and lived a lewd life. She did this to such an extent, he says, that she is at this time in the jail at Clinton, charged with lewdness. — Mayfield Times.

Why You Should Wear**A Gossard Corset**

The Gossard Corsets of today are the practical result of an intelligent effort to give women what they want. The corset which satisfies is not the corset which is merely attractive, but it is the model which will correct defects and supply deficiencies—a practical, dependable medium of figure building.

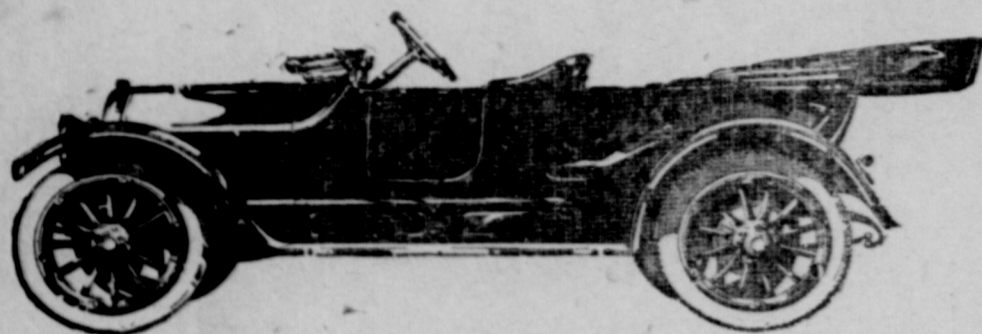

Every line and curve of a Gossard Corset has a purpose and can only perform its work of beautifying when worn by the individual figure for which it was intended.

TRIMMED WITH FUR

FELT HATS JUST NOW ALL THE
RAGE IN EUROPE.

Particularly Charming in All the Soft
Neutral Tints Are the Latest De-
signs—Millinery of White
May Be Fashionable.

Appropos of felt hats, I must record the fact that "cut felt" hats are an absolute rage in Paris and also at Biarritz, writes a correspondent from the latter place. These hats are "cut everywhere." The border of the brim is cut and left without binding; the only trimming consists of a band and flat bow of felt with "cut" edges.

These hats are charming in all the soft neutral tints; pale beige, silver gray, gray-blue and so on. Directoire shapes are being revived, and white crowns get higher and higher, very narrow brims are all the fashion. Nearly all the new sailor shapes in felt have soft crowns which are cleverly manipulated to give the impression of a double band around the crown.

In some cases wide bands of black or dark blue ribbon are introduced, but the correct thing at the present moment is the felt hat trimmed with fur. Lewis is showing some very eccentric hats in his Biarritz establishment. This milliner has the courage of his convictions and such a large following that almost any model launched by him becomes popular. In his showrooms I have seen a good many directoire toques, with towering crowns and the narrowest of narrow brims.

These toques are trimmed with flat bands of fur; or with lengths of bright colored picot ribbons, the latter being twisted round the high crown and tied in jaunty bows at one side.

White felt hats are now worn with the thinnest and most transparent dresses, and it is said that white and pale tinted felt hats will be fashionable all through the winter.

I have recently seen some beautiful tailored suits in Worth's show rooms. This dressmaker remains true to the traditions of his house. Nothing eccentric or merely sensational finds a place in the Maison Worth, but everything is in the most perfect taste.

Worth is making all his new winter coats quite long, that is to say, knee-length. And these coats are accompanied by plaited skirts which almost reach the ankle. The result is admir-

able. He showed me a lovely Louis XIV coat which had just been created for an English duchess.

It was made of raven-wing-blue faced cloth and trimmed with bands of sable; there were large cut jet buttons which had tiny diamond centers, and the coat was lined with pompadour brocade which showed dull blue flowers on a dark purple ground.

No panthers; nothing that could possibly be twisted into a "bustle." His dinner gowns for matrons—these have always been a Worth specialty—are made of the most magnificent velvets and brocades, and some of the trains of these gowns are heavily embroidered.

PLEA FOR TAILORED SUIT

Its Slim Body and High Rolling Col-
lar Become the American Woman
Very Well.

The top coat will be in its glory this season. That much is settled over here. The one-piece frock, therefore, will triumph over the tailored suit, as far as numbers go. The American woman, however, is peculiarly fitted to wear the tailored suit, and if she gives it up she will make a serious mistake. The lack of men workers in France and the garment makers here produced a comparative dearth of plain coats and skirts.

The suits that have been brought over, however, are excessively good looking. If a woman wears one with brilliancy she will look like a miniature of one of her ancestors.

Collars are high and rolling. Revers are large and important. The body part is slim, such as a dandy would like, and the full peplum falls in various convolutions over the hips.

There is room enough, however, for several kinds of costumes in the average American's wardrobe. The one-piece frock is a necessity. If one leads any manner of social life. The top coat is lavishly trimmed this year, when it is used for ceremonial occasions, and in satin, heavily soutached, it has reached the apex of fashion.

WILL COMB COUNTRY FOR ARMY RECRUITS

Virtually a house-to-house campaign throughout the nation is being planned by the War Department to obtain the 100,000 regular army recruits it will be necessary to enlist annually hereafter in order to keep the army up to the strength authorized by Congress in the reorganization and appropriation bills.

According to a new recruiting order, "to meet demands for the present and the immediate future, the recruiting service must be capable of furnishing annually an average of one recruit per 1000 of population, and this result can be accomplished only by canvassing every accessible locality in the United States and establishing through the aid of postmasters a conveniently located recruiting agency for each small area."

The new plan contemplates establishing such agencies in every county seat. From these bases recruiting parties will be sent to comb the rural districts. Tablets have been prepared to show recruiting officers the exact number of recruits who should be obtained in each county.

Authority is given under the law to enlist for service within continental United States only men who desire to take advantage of the provision that they may be furloughed into the regular army service at the end of one year of active service, if the furlough is approved by their commanding officers.

UGH CALOMEL MAKES YOU DEATHLY SICK.

Stop Using Dangerous Drug Be-
fore It Salivates You! It's
Horrible!

You're bilious, sluggish, constipated and believe you need vile dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask you druggist for a 50 cent bottle of Dodson's Liver Tone and take a spoonful tonight. It doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel sick and weak and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfect harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

Advt.

A movement to place the next Thanksgiving Day on November 23 instead of November 30 was inaugurated by the Merchants' Association of Kansas City. A telegram, signed by the executive board of the organization, was sent to President Wilson requesting the earlier date. Messages to retail organizations in twenty of the larger cities also were sent asking them to take similar action. The merchants say the holiday, falling as it does this year on the last of the month, works a hardship both to them and to their customers, crowding all Christmas business into three weeks.
